Our Philosophy

Touch has amazing power. At our Only spa & wellness, our therapists use touch to channel that power. Let touch heal, revitalize, and balance you during your selected treatments.

Only Spa focuses on natural and genuine therapeutic spa and wellness services.

Each offering is personalized to benefit you, the individual.

Our massages, facials and body therapies provide a deeply therapeutic experience.

*The result is decreased pain, an enhanced immune system,
and improved circulation.*

Most importantly, we offer relaxation and happiness.

A tenet of our spa's success is the atmosphere we provide. From the moment you enter our doors you are enveloped in a serene, yet genuine environment, making Balance Day Spa unlike any other experience you will find in Only spa & wellness.

Our promise is to bring you to a state of optimal health, while embodying an atmosphere of respect, loyalty, and appreciation.

Our Mission

At Only Spa, our mission is to provide personalized, unique experiences for each individual.

We promise to evaluate your needs and goals prior to any treatment.

We will adapt each visit's therapeutic treatment plan to address your wants and concerns in the most beneficial way.
